The information in this Report is believed accurate and is given only as of the date set forth on the cover and Infinity Q undertakes no obligation to update such information. This Report is provided for discussion purposes only, is only a summary of certain information, is not complete, does not contain certain material information about the Fund, including important conflicts disclosures and risk factors, and is subject to change without notice.

The information contained in the bottom of page 1 through page 2 is provided to simulate the effect of specific historical stress events and individual risk factor shocks on the current portfolio. These shocks occur instantaneously and do not account for the benefit of active portfolio management.

This Report does not constitute an offer to sell or a solicitation of an offer to purchase shares of the Fund. Any such offer or solicitation shall only be made pursuant to—subject to the terms and conditions contained in—the Fund's disclosure documents—which qualifies in its entirety the information set forth herein. The Fund's disclosure documents should be read carefully prior to making an investment, as they contain additional information about the investment objectives, terms and conditions, tax information and risk disclosures pertaining to the Fund.

An investment in the Fund is not suitable for all investors. An investment in the Fund would be speculative and entails a high degree of risk; no assurance can be given that the Fund's investment objective will be achieved or that investors will receive a return of their capital. Investment losses may occur from time to time. Nothing herein is intended to imply that a Fund's investment methodology may be considered "conservative," "safe," "risk free" or "risk averse." The Fund may employ leverage and other investment techniques that may increase the volatility of the Fund's performance and increase the Fund's risk of loss.

The information contained herein represents management's current expectation of how the Fund will continue to be operated in the near term; however, management's plans and policies in this respect may change in the future. In particular, (i) policies and approaches to portfolio monitoring, risk management, and asset allocation may change in the future without notice and (ii) economic, market and other conditions could cause the Fund to deviate from stated investment objectives and guidelines.

PAST PERFORMANCE IS NOT AN INDICATOR OR GUARANTEE OF FUTURE RESULTS. THERE IS NO GUARANTEE THAT THE FUND WILL ACHIEVE ITS INVESTMENT OBJECTIVES IN THE FUTURE.
